

DFD Level 0 — Context Diagram

DFD Level 1 — CareFrame System Processes

DFD Level 2 — Report Processing and AI Summary

DFD Notes

- Level 0 shows CareFrame as one process and its external entities.
- Level 1 decomposes the system into authentication, patient/access, medical records, report processing, intelligence, AI summary and administration.
- Level 2 expands report processing and the AI-summary workflow, including extraction/OCR, normalization, validation, source evidence and retry/failure handling.
